

Drown Our Sorrows

Swimming upstream Chasin' a dream Didn't you think you'd never grow old Running out of luck Chasin' the almighty buck Ain't you tired of panning for gold?

CHORUS: Tonight let's drown our sorrows Have toast for a better tomorrow Unload the cooler let it flow Let go and drown our sorrows Drown our sorrows

Breakin' out the guitars Underneath the summer stars Margaritaville fills the night Screamin' way out loud Ridin' on a midnight cloud Leave the week behind It's time to unwind

CHORUS: Tonight let's drown our sorrows Have toast for a better tomorrow Unload the cooler let it flow Let go and drown our sorrows

BRIDGE: It's a beautiful sound Who wants another round?

CHORUS: Tonight let's drown our sorrows Have toast for a better tomorrow Unload the cooler let it flow

Getting all unwired Dancin' with the fire Let's go and drown our sorrows Drown our sorrows
