

I Choose You

This song is my personal favorite. The very thought of losing my wife would be a sorrowful choice. I couldn't live with that, so... I can't live without you! I choose you, Nikki.

Forever, Me

If I could do it all again
If I could walk back down the aisle
Would I trade this all away
For someone else's smile

Could I take another's hand
Kiss someone else goodnight
Would I rewrite the story
Take another as my wife

CHORUS: :

No I choose you
And only you
There's no one else in this
whole world
That loves me like you do
I choose you
And only you
If you'll hold my hand
There's nothing we can't go through
My love forever
I choose you
Only you

When I look at our children
I see you in their eyes
Do you think I'd ever walk away
Leave them there to cry

I'm still dreamin our dream
The one where we grow old
Where we live and die in each
others arms
Never letting go

CHORUS:

No I choose you
And only you
There's no one else in this
whole world
That loves me like you do
I choose you
And only you
If you'll hold my hand
There's nothing we can't go through
My love forever
I choose you

No I choose you

BRIDGE:

We've seen love ones die
Babies born
Just look at all we've shared
I chose you then
And I choose you now
I'm not goin anywhere

CHORUS:

I choose you
And only you
There's no one else in this
whole world
That loves me like you do
I choose you
And only you
If you'll hold my hand
There's nothing we can't go through
My love forever
My love forever
I choose you
Yes I choose you
