

## If Only

I reach for you but you turn away and stare  
And I dream of another woman with me here  
I don't know how to tell you how this feels  
But this girl had me all head over heels

### CHORUS:

If only you were more like her  
If only my heart was not unsure  
If only you were more like her  
If only  
Mmm, if only

I gaze out the window and think of him  
He's a young man full of passion and a dream  
I don't know how to break down these walls  
But it's lonely just waiting for his call

### CHORUS:

If only you were more like him  
If only I didn't have to pretend  
That you were more like him If only

### BRIDGE:

I saw her for a moment  
the way you looked at me  
Is it wrong for me to try and find the boy you used to be  
So care free, if only

### CHORUS:

If only we could fall in love again  
If only I could find my best friend  
If only we could just go back to when When we first began  
If only  
Ohhh, if only  
Ohh, if only, only, only, ohh  
If only  
Ohhh, if only
