

## Just like Them

Words by: Chuck White

Vocals by: Matt Dame

Guitar by : Matt Dame

Just like them

She dreamt that we could be

The ones who had it all

For the whole world to see

She would watch them out the window

Chasing kids from dusk to dawn

They'd go to church each Sunday

The perfect house the perfect lawn

Chorus:

There they stood

Nothing but blue skies above

Holding hands, so madly in love

This will be us one day

A fairytale that never ends

Just like them

I walked her down the aisle

Together we built a home

It seems so far away now

With Grandkids of our own

We've struggled through some dark times

We've prayed some nights away

The laughter filled our house

And oh those Holidays

Chorus:

This should be our time

We're in the Golden years

If I could wrap my arms around you

And dance away your tears

Give us back that young love

The kind we had back when

Just like them

Bridge:

Till death do us part , parted us today  
Over 30 years now just washed down the drain

Just like them

The couple that couldn't make it through  
Like a third wheel at some party  
I feel like such a fool

I can't help second guessing  
I'm a man without his home  
My life stuffed in a suitcase  
This is deeper than alone

Chorus:

I'm trying to look up  
Some say keep moving on  
This is such a broken story  
Like some bad country song  
How could this be  
No more us no more we  
Never again . . .  
Friends

Here we are  
Just like them
