

## Never Drink Again

I'll never drink again Famous last words When you wind up in Tijuana With somebody else's girl  
And your eyes still half crossed With that lump on your head The last thing you'll want for  
breakfast Is that whiskey on your breath

CHORUS: I'll never drink again No No No This time I really mean it The end Yeah Yeah Yeah I'm  
really finished I'm not like them No I'll never drink again

A few days go by And you start feelin' good The Devil whispers right in your ear Well maybe  
you should A couple beers later now And there's no turning back Everybody's got a crazy uncle  
Well, mine's Uncle Jack

CHORUS: No I'll never drink again No No No This time I really mean it The end Yeah Yeah Yeah  
Well, I'm really finished I'm not like them No I'll never drink again

BRIDGE: Bartender you know your my only friend Pour me just one more And I'll never drink  
again No

CHORUS: I'll never drink again No No No This time I really mean it The end Yeah Yeah Yeah I'm  
really finished Hallelujah AMEN I'll never drink again
