

When our prayers get answered, we go on to the next problem and begin to worry all over again as if it's doubtful God will come through. God, I'm sorry for always doubting Your greatness.

Never Forget

They hear the scream of a desperate mom
She runs and kneels down in the street
Neighbors gather 'round the little boy
One man prays the others weep
Then that little boy's eyes open
There's a rustling in the leaves
Someone mutters he was lucky
But the rest of us, well, we believe

CHORUS:

Let us never forget
God is with us even yet
He still listens to our prayers
And when the brokenhearted call
On their knees they seem so tall
And God hears them everywhere
Let us never forget

She serves him the papers
They lay frozen in his hands
They're both torn up about the
children
He feels helpless as a man
But they got friends who won't stop prayin'
They just will not let them go
So love caught fire and burned those papers
And that's what happens
When you bang on Heaven's door

CHORUS:

Let us never forget
God is with us even yet
He still listens to our prayers
And when the brokenhearted fall
On their knees they seem so tall
And God hears them everywhere
Let us never forget

BRIDGE:

So if you prayed for me I'm thankful
If you prayed for me my family thanks
you too

CHORUS:

And we will never forget
God is with us even yet
Because he listened to your prayers
When the brokenhearted call

On their knees they seem so tall
And God hears them everywhere

We will always be in their debt
And we will never forget
Yes, we will always be in your debt
Let us never forget ...
