

## Road To Nowhere

He was like a hero  
The high school football star  
But he's still making touchdowns in the local bar  
30 years later now still says he's moving on  
Bartender knows the words to that same old song  
You can't let go if you don't go anywhere  
If you're stuck on a bar stool  
That's the devils chair

### CHORUS:

That's the road to nowhere  
That's the road to nowhere  
That's the road to nowhere  
Nowhere fast

He lives for the reunions and the old gang  
to come around  
The stories get bigger from such a small  
small town  
But just for a moment he almost gets it back  
A few shots later and the memories fade to black  
You can't let go if you don't go anywhere  
If you're stuck on a barstool  
That's the devils chair

### CHORUS:

That's the road to nowhere  
That's the road to nowhere  
That's the road to nowhere  
Nowhere fast

### BRIDGE:

So I miss those nights where we used to dream  
Singing Neil Young and drinking Little Kings

### CHORUS:

That's the road to nowhere  
That's the road to nowhere  
That's the road to nowhere  
Nowhere fast
