

Someone Like Me

My teacher has me reading
But the words get switched around
And it's hard to pay attention
When there's the slightest sight or sound

There's a rainbow out the window
And noises in the hall
Other kids don't seem to notice
It doesn't bother them at all

CHORUS:

I'm really tryin'
Dying to be free
You hand me papers
That seem so hard to read
You think that I don't care
Oh how I wish that you could see
Teacher, can you teach someone like me

My friends make it look easy
Facts and figures are their friends
I'm reading the same pages
But sometimes they don't make sense

My homework feels like an ocean
And I'm drowning in the sea
Everybody says keep swimming
Won't someone recue me

CHORUS:

I'm really tryin'
Dying to be free
You hand me papers
That seem so hard to read
You think that I don't care
Oh how I wish that you could see
Teacher, can you teach someone like me

BRIDGE:

I really wish that you could understand
I'm tired of hiding
These grades beneath my hand

CHORUS:

I'm really tryin'
Dying to be free
You hand me papers
That I never want to read
You think that I don't care
Oh how I wish that you could see
Teacher, can you teach someone
Teacher, won't you teach someone like me
