

## Sound Of Freedom

He came straight out of boot camp  
Right into the war  
He could barely sleep a wink  
Between the sirens and the floor

As he thought about his grandpa  
And the rest who served and died  
He closed his eyes and pictured them  
All standing by his side And his heart was pounding like a drum

### CHORUS:

To the sound of freedom  
That protects you and me  
The sound of freedom  
The kind that takes you to your knees  
To the sound of freedom  
It is never, ever free  
Feel your heart pounding like a drum  
To the sound of freedom

All the veterans, they can hear  
Far beyond the battleground  
And they'll never take for granted  
Those precious little sounds  
Like a child filled with laughter  
Or a train comin' round the bend  
When America comes callin'  
They'd fight for Her again

And their hearts are pounding like a drum

### CHORUS:

To the sound of freedom  
That protects you and me  
The sound of freedom  
The kind that takes you to your knees  
To the sound of freedom  
It is never, ever free  
Feel your heart pounding like a drum  
To the sound of freedom

### BRIDGE:

In America you can shout  
Whatever you believe  
This is still the greatest country  
We're the land of the free

### CHORUS:

To the sound of freedom  
That protects you and me  
The sound of freedom  
The kind that takes you to your knees

To the sound of freedom  
It is never, ever free  
Feel your heart pounding like a drum

CHORUS:

To the sound of freedom  
That protects you and me  
The sound of freedom  
The kind that takes you to your knees  
To the sound of freedom  
It is never, ever free  
Feel your heart pounding like a drum  
To the sound of freedom  
That's the sound of freedom The sound of freedom
