

Take This Away

Words by: Chuck & Nikki White, Morgan Cryar

Vocals by: Matt Dame

Guitar by: Matt Dame

There's a stranger among us
It's not a woman or a man
This ghost has us all hiding
Behind a mask with covered hands

These four walls keep getting closer
Days run together here alone
Without my friends or family
I'm like a prisoner here at home

Chorus:

Lord show us the way
Bring back those brighter days
I pray . . . Take this away

This thing knows no boundaries
No religion black or white
Some will never know they've got it
Others battle for their life

Feel so helpless here on lockdown
With others out there risking everything
I'd rather be stuck somewhere in traffic
Complaining about my old job again

Chorus:

Lord show us the way
Bring back those brighter days
I pray . . . Take this away

Bridge:

I miss you so much

Through the window we pretend to touch

No hugs today

But please stay

Don't take this away

Lord don't take this away

Please stay . . . Don't take this away
