

## That's My Boy Lyrics

I still remember when she said, "It's time."  
A boy, a girl, either one was fine  
The doctor, he came out  
And said it won't be long  
You know a newborn sounds  
Just like the sweetest song

CHORUS:

And then I saw him

We both cried

He looked at me through little eyes

And I knew he'd be his daddy's

pride and joy

That's my boy

I still remember his first day of school

I stayed as long as they'd allow me to

But I lingered there and watched him

Through the window that day

Till he smiled and blew a kiss

And then he waved me away

CHORUS:

And when I saw him,  
yes, I cried

He looked at me through fearless eyes

He knew that he was daddy's

pride and joy

That's my boy

And now caps and gowns surround me

And I get the strangest feelin'

That he's leavin' like an arrow from my bow

So I search this sea of faces

For the faintest little traces

Of that little bitty boy I used to know

CHORUS:

When I see him, we both cry

He looks at me through hero eyes

And he knows that he's his daddy's

pride and joy

That's my boy

Son, you know you'll always be my

pride and joy

That's my boy
