

Wanna Work

They called Grandpa a "Lifer"
On the line out at Ford
Myself, I worked the tool and die
Until they closed the doors
So I'm out here poundin' pavement
But keep hittin' that same old wall
And it's hard not to look desperate
When you're tryin' to stand tall

CHORUS:

I just wanna work
So I can live
Take care of my family
And give what I can give
I just wanna work
And earn my way
I don't want a handout
Just an honest job that pays
I'll show you what I'm worth
I just wanna work

Now this country was built
On the blood, sweat and tears
From the hard work of Americans
For the past 200 years
And it used to mean the world
If it said "Made in the USA"
And I swear I hear my grandpa
Rollin' over in his grave

CHORUS:

I just wanna work
So I can live
Take care of my family
And give what I can give
I just wanna work
And earn my way
I don't want a handout
Just an honest job that pays
And I'll show you what I'm worth
I just wanna work

BRIDGE:

I'm not gonna lay down
And I'm not gonna cry
I just wanna look my wife
And children in the eyes

CHORUS:

I just wanna work
So I can live
Take care of my family

And give what I can give
I just wanna work
And earn my way
I don't want a handout
Just an honest job that pays
I'll show you what I'm worth
I just wanna work
I just wanna work
