

Where Did All The Time Go?

He stood there with his back pack
And his sleeping bag on the floor
Mama went to hold him
But he was only going next door
He's growing up so quickly
And we were feeling old
Momma cried as she asked me
Where did all the time go?

CHORUS:

Where did all the time go?
How'd the days turn into years?
With every new memory
Can the old ones disappear?
Where did all the time go?
Where did all the time go?
Maybe all that time is just right here

She looked like the prom queen
As I helped her pin her flower
Don't stay out too late kids
Then I paced the floor for hours
She's growing up so quickly
With so many tears untold
What happened to my baby?
Where did all the time go?

CHORUS:

Where did all the time go?
How'd the days turn into years?
With every new memory
Can the old ones disappear?
Where did all the time go?
Where did all the time go?
Maybe all that time is just right here

BRIDGE:

Old photographs they have a way to take us
back in time
But that mirror on my wall shows every wrinkle
and every line

CHORUS:

Where did all the time go?
How'd the days turn into years
With every new memory
Can the old ones disappear?
Where did all the time go?
Where did all the time go?
Maybe all that time is just right here
